Summary

I'm Ivan, a senior software engineer with over 6 years of experience in software engineering & web development.

I'm highly organized, self-motivated, and proficient with both frontend & backend technologies.

I'm seeking to use my hard won technical and programming skills alongside proven project management to improve quality, cost and time metrics for web application development.

I am a great communicator, enjoy collaborating within teams where I bring my creativity in problem solving, drive and efficiency to the table. I believe in being a self-starter, thinking critically and taking accountability for my work and responsibilities, while inspiring the same in people around me.
